

# ABLUTION CONTAINER CONTAINER ISO 20' 1C

FIELD  
CAMPS & HOSPITALS

NATO STOCK NUMBER: TO CONSULT

## DESCRIPTION

Ablution Container designed to provide basic ablution services (shower, WCs and washbasins) to Armed Forces or Emergency Agencies in any kind of Missions or deployment scenarios.

It is based on Container ISO 20' 1C designed according to STANAG 2828 Military Pallets, Packages and Containers, so it could be transported by Air, Sea, Land and Railway.

Designed to minimize Logistic Footprint.

Due to its innovative modular design, Ablution capabilities (Showers, WCs and Washbins) could be configured to customer needs.

Optimal ergonomics and comfort accommodation, including environment and climate conditions according to NATO AECTP-100 Environmental Guidelines for Defence Material.

## TECHNICAL FEATURES

- Container ISO 20' 1C
- Thermal insulation sandwich panel
- One pedestrian Entry-door with safety lock
- One window
- Extractor Fan (Air recirculation)
- Non-Slip floor
- Internal LED lighting
  
- Made on Corrosion Resistant materials:
  - Stainless Steel
  - Phenolic Composite Panels
  - Aluminum
