

## DESCRIPTION

Ground decontamination bar is a powerful accessory to provide to Hazmat Response Teams a fast and effective decontamination of ground or terrains affected by CBRN incidents. Its innovative and modular design enables it to be used both in front or rear part of the vehicle, besides its height is also adjustable.

It could be installed in any type of standard truck or medium vehicle. Ground decon bar is available in different length to fulfill customer requirements.

Ground decon bar is developed according to STANAG 4653 Combined Operational Characteristics, Technical specifications, Test Procedures and Evaluation Criteria for Chemical, Biological, Radiological and Nuclear Decontamination Equipment.

## PERFORMANCE

Decontamination performance depends on two parameters: Length of the ground decontamination bar and the speed of the vehicle.

	Ground Decon Bar Length (m)			
	2,5	3	4	5
Speed	Surface (m <sup>2</sup> /h)	Surface (m <sup>2</sup> /h)	Surface (m <sup>2</sup> /h)	Surface (m <sup>2</sup> /h)
2	5.000	6.000	8.000	10.000
3	7.500	9.000	12.000	15.000
4	10.000	12.000	16.000	20.000
5	12.500	15.000	20.000	25.000
6	15.000	18.000	24.000	30.000
