

FIELD HOSPITAL 50 BEDS

INFLATABLE TENTS HVI

NATO STOCK NUMBER: TO CONSULT

DESCRIPCION

This is the hospital of the future which combines quick deployment, adaptability to environment, comfort, hygiene and operability.

Made with state of the art materials, allowing a degree of logistics optimization unimaginable until now.

The HVI tent hospital is designed to work in adverse climatic conditions (+55°C – 36°C) and wind speeds of over 105 km / hour.

Very simple, semi-automatic erection that does not require skilled labour.

Hospitals are delivered “turnkey”, including all the clinical and logistic elements.

The most cost-effective, top-quality solution.
