

FIELD MORGUE TRAILER

NATO STOCK NUMBER: TO CONSULT

DESCRIPTION

The Morgue Trailer is composed by 1 cold chamber of 3,5m³ of total volume with 2 shelves for 4 bodies. The chamber is adequate to be used like a Morgue, assuring a constant temperature with alarm in case of electricity failure or bad functioning of the cooling equipment. It works with electricity of a power generator or external network. It is also included, LED lighting 12V. When the doors are open the LED Light is turned on and the cooling equipment switched off.

DIMENSIONS	TARE
4674 x 1869 x 2030 mm	880 kg / Mtma/mma 1500Kg

TECHNICAL SPECIFICATIONS (COOLING)

TYPE	AIR FLOW	POWER	WORKING TEMPERATURE	REFRIGERATING GAZ
Monobloc with electric compressor	600 m ³ /h	600W	45°C Máx.	R404A sin CFC

TECHNICAL SPECIFICATIONS (CHAMBER)

CAPACITY	3.5 m ³
MATERIAL	Sandwich Panel (Polyéster-Polyurethane-Polyester)
FLOOR	Resin with reinforced fiber glass surface
INTERNAL DIMENSIONS	2.440 x 1.240 x 1.300
DOORS	2 doors of aprox. 950 x 990 in the rear part of the tráiler.
INTERNAL LIGHTING	LED 12 V
TEMPERATURE CONTROL	EXTERNAL Thermometer
